## PERKINS BROS. CO.

ON THIRD AVENUE

Railway company of Texas, has lifted its embargo on the shipment of wheat from points on its line and from out of Galveston and the Texas and Pacific has so modified its embargo as to clear the heavy congestion of wheat shipments at its principal points, Westwego, New Orleans. This action was taken by the two principal Texas lines yesterday.

### SEGREGATED LAND SALE

Monday, November 16, is the date set by the Interior Department for beginning the sale of the surface and the segregated coal and asphalt lands in Eastern Oklahoma, according to the formal notice which has been received by the News from the Commissioner of Indian Affairs, Hon. Cato Sells.

The exact schedule for the sales in the various counties has not been arranged but the preliminary announcement says that the sale will be held at the various county seats, beginning November 16, and ending in December.

Altogether there are 437,743 acres of the segregated lands scattered through the counties of Pittsburg, LeFlore, Haskell, Latimer, Atoka, Coal, Carter, Pontotoc, Murray, Stephens and Johnson counties, and approximately one-fourth of the total is situated in Pittsburg county. It is announced that only about 375 thousand acres out of the whole are to be sold at this time.

Reservations have been made because of coal leases and for townsite and cemetery purposes.

One person is limited to 160 acres of the agricultural land and 600 acres of the grazing land.

Twenty-five per cent of the total bid must be paid in cash and twenty-five per cent of the remainder paid each year until the total amount has been paid, the principal to earn interest at the rate of five per cent per annum.

Where improvements are on the land they will be sold with the surface at the appraised value. The improvements must be paid for in cash.

Mineral rights are reserved on all the land offered to be sold. Circulars which will be issued later will specify what lands are improved and with what tracts mineral rights will be sold.

### FOR DEMOCRATIC PRECINCT MEETING

We have compiled for the Precinct Democratic meeting a list of the number of delegates allowed to each precinct, entitled to be sent to the county convention to be held at Durant on September 5, 1914.

Wp. Pet. Wd.	Votes	Dea.

Representation is based on one delegate for every twenty-five votes or major fraction thereof, according to the 1910 vote as submitted above.

## FIRST FRENCH LINE IS TAKEN

(Continued from page 1)

still in progress enveloping the north ern frontier of France.

Relations between Rome and Vienna are momentarily becoming more strained.

The Mail's war map shows the Germans and allies practically in touch from south on Ljagwy, the Germans right resting on Courtal. There are short breaks in the German lines at Gosselies and Braine.

Such news received here at 1:00 o'clock this afternoon goes far toward restoring the equilibrium, even balancing the contending parties. Reports of Russian success against Germany and Austria appear authentic.

If it is true that the Kaiser has sent the crown prince to oppose the Russians, the young leader of the German war party apparently has hard work cut out for him.

Latest reports of Russian victories

in East Prussia bring us to the 21st, when the routed enemy was refused an armistice to bury the dead. The Russians are following up their pursuit westward to Gumbinnen.

It is believed that the victorious Serbians are about to invade Hungary.

The censorship continues to make a blank page of the activities in the Northern French frontier. It should be borne in mind we are only getting today news favorable to all the allies, but have no doubt that authentic news reverses can no longer be concealed.

At 2 o'clock the news was merely confirmatory of what had been already known, except that no German troops are near Antwerp.

An official French bulletin says that a great battle between the allies and the German forces is continuing all along the line, without advantage on either side.

## IS STIRRED BY WAR'S REALTIES

(Continued from page 1)

army counted in the great European struggle.

Thus far, England has felt the war far less than any European nation, except probably Holland and Switzerland, but now, waiting for the issue of the battle and for the list of the killed and wounded, the English people understand all that it means.

Every boat from Belgium comes crowded with impoverished refugees who have fled before the German invasion. An organization is being formed for the care of these sufferers and a part of the Prince of Wales' relief fund, which amounts to more than \$7,500,000 will be sent to Antwerp for the relief of the sufferers who have taken refuge there. Thousands of Belgians have crossed the border for asylum and a committee will arrange for their relief.

England and France apparently propose to care for their smaller ally who thus far has borne the brunt of the hardships which the war entails.

## GERMAN TROOPS ON FRENCH SOIL

(Continued from page 1.)

troops are intact. Our cavalry in no way suffered and our artillery has affirmed its superiority.

Officers and soldiers of condition, morally and physically, as a result of which

have been issued the list of the struggle will change a few days. The French army will remain for a time on the defensive, but at the right moment, to be decided upon by the Commander in Chief, it will resume a vigorous offensive.

"Our losses are heavy. It would be premature to enumerate them. It would be equally so to enumerate the losses of the Germans, who suffered so heavily they were obliged to abandon their counter-attacks and establish themselves in fresh positions in Lorraine.

"We delivered four attacks yesterday from our position to the north of Nancy, inflicting a heavy loss to the enemy.

"In regard to the general situation we have full use of the railroads and retain command of the seas. Our operations have enabled the Russians to come into action and penetrate to the heart of West Prussia. It is to be regretted that the offensive operations planned failed to achieve their purpose, as a result of difficulties impossible to foresee. It would have shortened the war, but our defense remains intact in the presence of an already weakened army.

"Every Frenchman will deplore the temporary abandonment of Alsace and Lorraine which we had occupied and certain parts of the national territory will suffer from event of which they will be the theater.

"The ordeal is inevitable but temporary. Thus detachments of German cavalry belonging to an unattached division operating on the extreme right has penetrated to Roubaix, (six miles north of Lille) and the Roubaix district, which are defended by the territorial reservists.

"Our valiant people will know how to find courage to support this trial with unshakable faith in the final success, which is not to be doubted.

In telling to the government the whole truth the Government and military authorities give it their strongest proof of absolute confidence in victory, which depends only on our perseverance and tenacity."

### DAL GILMORE HAD EXAMINING TRIAL

The examining trial of Dal Gilmore, charged with adultery, was held before County Judge Rappoles, on Wednesday afternoon, in the District Court Room.

The defendant lives at Sherman, Texas and nearly every inhabitant from that section of the country seemed to be present, the court room being well filled with interested spectators. After hearing the evidence the judge bound him over to district court in the sum of \$500 which he made.

## NEWS OF THE WORLD IN BRIEF

The Elclair says that it has learned that August 27 has been fixed as the date on which general Italian mobilization will be ordered.

There are indications of acute diplomatic tensions between Vienna and Rome, according to the Rome correspondent of the elite Parisian. Austria it is declared has approached Italy for according facilities to the allied fleets in the Adriatic and it is possible that a declaration of war between Italy and Austria will be announced early next week.

The Avanti says that there has been another naval conflict in the Adriatic in which some of the Austrian ships were sunk. The same paper says that Greece has dispatched troops to aid Serbia in her fighting against Austria.

The government has procured from the life insurance companies in France, certain modifications of the policies which result in the benefit to French soldiers and their families. The military governor announced to day that the transportation of freight would be resumed on the schedule existing before the mobilization.

Nearly one hundred women and children from Tsing Tau, the seat of government of the German territory of Kian-Chau are being housed in the barracks of the German legation, the soldiers having gone to Tsing Tau. Other women and chil-

dren of the German support are being cared for at Tien-tsin, Shanghai and elsewhere.

Six Americans have elected to remain at Tsing Tau during the siege. B. Voght, wife and daughter, W. R. Peck, Edgar Copy, and A. M. Brace.

Eduardo Hay, secretary of war, in the Carranza government, has resigned. Reasons not given. His successor has not been named.

An official statement says Gen. Orozco was defeated by Constitutionalists in Parras and is now fleeing. Pueblo is now occupied by Carranza.

The general cotton conference will be held in the auditorium of the association of Commerce at New Orleans on August 27-28. The first session is 11 o'clock Thursday morning. Reduced railway rates will be given from every section of the country. The cotton situation is critical and a prompt action is imperative.

HARVEY JORDAN

A Rome dispatch to the Exchange Telegraph company reports that Emperor Francis Joseph is in a grave condition and may die at any moment.

Della Voipe announced Saturday that the conclave of Cardinals would begin its work of selecting a successor to the late Pope Pius X. on August 31. It is expected that new Pope will be selected by September 3.

C. Barclay, of Chester, Texas, a ground man for the Southwestern Telephone company, was instantly killed Monday afternoon when a wire he was pulling broke and came into contact with a trolley wire. The accident occurred in Houston on Washington avenue, near the Grand Central Depot. Barclay received the full force of 2200 volts of electricity of the trolley wire.

The Venice correspondent of the Daily Mail sends the report that Prince William of Albania accompanied by his family, have arrived in Brindisi en route from Germany. The correspondent also states that Albania is in a state of anarchy.

Gen. Alvaro Obregon left Mexico City Sunday for Senora State, according to a telegram from Carranza received today by Jorge U. Orozco, the Constitutional leader in Agua Prieta. The message did not state whether he would join Villa on his trip to settle all Sonora affairs or whether he would proceed direct to Agua Prieta.

A committee of residents of Vera Cruz who have sympathized with the Constitutionalists have gone to the capital to urge Provisional President Carranza to demand the withdrawal of the American troops. So confident are they that the American troops will be taken out of the city by September 1 that they have organized a local city government, the services of which will be offered to General Carranza.

Preparations were begun today by the Department of Justice officials

and the attorneys for the New Haven Railroad, to write an agreement for the systems dissolution into legal form and submit it probably next week to the United States District Court at New York.

The submission of the decree will mark the final stage in the negotiations between the law department of the government and the railroads. It was said at the department tonight that there is no reason to believe the New Haven lawyers will not agree to the department's ideas since the latest action of the New Haven board of directors was to declare willingness to meet Mr. McKeen's terms. The decree will follow the lines of the terms between the department and the railroad last spring, it is said.

A Copenhagen dispatch to the Exchange Telegraph Company, dated on August 24, says:

"The condition of Emperor Francis Joseph, of Austria, according to telegrams received here today, is much worse. His death is but a question of hours.

A rumor is in circulation in Paris that the Germans have occupied the unfortified town of Nancy. This report, however, lacks confirmation.

Nancy is the capital of the department of Meurthe and Moselle, 35 miles south of Metz on the left bank of the River Meurthe. It is about 10 miles from the German frontier and so one of the best built towns of France and has a population of over 90 thousand people. Of the ancient fortifications of the town only the citadel has been preserved.

The Missouri, Kansas and Texas
